Also a really cool thing happened. Stake conference speakers were not given an assigned topic except for 2 of them during the entire conference, and the rest of the topics of the talks were by revelation. The thing that is struggling in our area is unity within the ward, and the talks were all about unity. It was just a cool and neat experience to see that.

A general authority will come to Teresina to make another stake here. Also there is a new stake center being built and from what I have heard it is going to be one of the most advanced stake centers in the world for the next 6 months which is pretty cool. I haven't seen it yet, but that is what one missionary said who talked with the people working on it.

The church is growing!
